

Emethy's® EBVT - the EBV Transformer

Epstein-Barr virus (EBV) is part of the herpesvirus family. Other infections in this undesirable family include herpes, shingles and chickenpox. Mononucleosis (aka mono or the "Kissing Disease") is probably the most commonly-known way EBV manifests itself. Up to ninety-five percent of the population is said to be infected with EBV. The majority of these affected people are going through life as EBV carriers. Carriers are symptomless (the virus lingers about in a dormant state) A triggering of the EBV virus often happens in times of prolonged stress. Symptoms include extreme fatigue, aching muscles & joints, swollen lymph nodes and persistent flu-like symptoms. Anxiety and depression can be yet another outcome of this outburst.

Emethy's® EBVT focuses mainly on Essiac herbs, Echinacea, Garlic, Zeolites and Oxygen in this immune transforming formula. The Epstein-Barr virus is the driving force behind a multitude of immune imbalances and most people are carriers to EBV and don't even know it. The aim is to strengthen the immune system to its utmost function. Carriers to EBV, where the virus remains dormant in B-cells (cells that produce antibodies), can suddenly wake up one day to a battle with this hidden invader.

A strong immune system is is key to keeping Epstein Barr virus at bay. Strengthening the Lymphatic system and Enhancing our Immune system is vital to overriding the trappings of EBV.

Emethy's® EBVT would be a perfect companion to Emethy's® LIVr and TCEL formulas for further conquering EBV.

Emethy's® EBVT is a LifeLong Remedy \$100.00
